

**MOUNTAIN WAVE**

## **SKYLOTEC present the ski touring and freeriding collection**

**With the takeover of the freeski brand Mountain Wave, the climbing specialist SKYLOTEC has expanded its range to also offer passionate alpinists everything they need in winter for mountain sport. Now Mountain Wave from SKYLOTEC unveils its 2010/2011 collection!**

Songs from well-known artistes provided the inspiration for the different models. The design was created to reflect statements in the lyrics of these songs. The collection was completely revamped to also ensure the availability of innovative, superior products in winter, 100% made in Europe and in reliable SKYLOTEC quality reflecting the company's principle of High Protection. Best Performance. SKYLOTEC presents 7 ski models and 2 sticks for different uses - a broad product range that caters for every wish.

### **“GET UP”**

Playfully making those “first tracks” with the new “GET UP”. Whether you are ascending or descending, the specially-reinforced light wooden core provides incredible strength and ensures pure skiing fun on every tour. And even trips on the hardest of slopes pose no problem. The idea behind this brilliant model was inspired by Bob Marley with his song “Get Up Stand Up”.

Features:  
Category: Tour  
Sidecut: 116 – 76 – 104  
Length: 156 / 163 / 170 / 177  
Radius: 16.5 m (170)  
Weight: 1330 gr. (170)  
Price: 469.95 €

**“GET UP” – the touring ski for every occasion!**

### **“WAKE UP”**

Inspired by “Rage Against the Machine” and their hit “Wake Up”, getting up on this ski is particularly easy. A solid sandwich structure, a wooden core and an 82 mm waist are the stuff dreams are made of: “Wake up! Powder is calling!”

Features:  
Category: Tour All-round  
Sidecut: 118 – 82 – 110  
Length: 156 / 163 / 170 / 177  
Radius: 17.5 m (170)  
Weight: 1470 gr. (170)  
Price: 429.95 €

**“WAKE UP” – another good reason for getting up early!**

## “PUSH”

“You got to keep on pushing!” was the advice given by The Black Seeds in their song “Keep On Pushing”. SKYLOTEC also continually searches for its limits and refuses to compromise in any respect! The “PUSH” masters every situation with confidence. A perfect ratio of width to weight means that it is an absolute “MUST” for every tourer who loves the downhill experience.

### Features:

Category: Tour Freeride  
Sidecut: 122 – 88 – 112  
Length: 166 / 175 / 184  
Radius: 20.5 m (175)  
Weight: 1580 gr. (175)  
Price: 499.95 €

**“PUSH” masters every conceivable downhill run with confidence!**

## “EASY DAY”

This all-rounder is distinguished by the enormous flexibility of its use – whether powder or Telemark skiing, ski touring or even on the slopes, the “EASY DAY” is a lot of fun. The inspiration for this ski came from the Bananafishbones and their classic track, “Easy Day”.

### Features:

Category: Freeride All-round  
Sidecut: 130 – 96 – 120  
Length: 166 / 176 / 186  
Radius: 21 m (176)  
Weight: 1830 gr. (176)  
Price: 549.95 €

**“EASY DAY” – the all-round freerider that lives up to its name!**

## “DIPLOMAT”

Ben Harper and his song “Burn One Down” provided the inspiration for the all-rounder “DIPLOMAT”. Its skiing characteristics are superb, thanks to its rocker and optimally-harmonized sidecuts. The ski provides a perfect lift, is extremely quiet when running and provides the required degree of safety for a soft landing, even where higher jumps are involved. Perfectly reflecting the philosophy of “do what you choose to do”.

### Features:

Category: Big Mountain  
Sidecut: 140 – 104 – 128  
Length: 172 / 182 / 192  
Radius: 22.5 m (192)  
Price: 599.95 €

**Diplomacy is the motto when it comes to this Big Mountain ski with rocker technology.**

## “WANTED”

The weapon of choice for cool lines: the “WANTED”! Complete rocker balance means it rocks even the steepest face, drops easily over the highest cliff and can cope with any depth of powder. The idea behind it was inspired by “Wanted Man” from Johnny Cash. “Wanted! Lines: no face too steep, no cliff too high, no powder too deep.”

Features:

Category: Deep Powder  
Sidecut: 154 – 125 – 131  
Length: 187  
Radius: 17.5 m  
Price: 649.95 €

The “WANTED“ is the weapon of choice for powder junkies!

## “SIGNATURE HTB”

The strictly-limited “PUSH” model has been developed in cooperation with the Brauhaus Tegernsee and its Bräustüberl brewery restaurant and tavern. The “SIGNATURE HTB” is at heart a ski touring freerider with a superior wooden core that epitomises traditional Bavarian qualities when touring, in deep snow and even on the slopes. With an appearance that pays homage to its Bavarian roots and one of the best Bavarian breweries with its cosy and inviting “Bräustüberl” tavern.

Features:

Category: Tour Freeride (special “PUSH” model)  
Sidecut: 122 – 88 – 112  
Length: 166 / 175 / 184  
Radius: 20.5 m (175)  
Weight: 1580 gr. (175)  
Price: 699.95 €

“SIGNATURE HTB“:  
The unique touring freerider in a strictly-limited edition!

## “CHANGE”

This stick needs no more improvement! “Nothing more to change” is the quintessence of the chart hit “change” from Tracy Chapman, and the same applies to this excellent freeride stick from SKYLOTEC. It is even “unshrinkable”, thanks to its dual locking mechanism!

Features:

- Dual locking mechanism (external locking system + classic internal thread)
- Soft, water-repellent foam grip
- Padded hand loop (neoprene)
- Superior-quality impression (sublimated, therefore extremely scratch resistant)
- 85 to 145 cm long
- Weight / Stick approx. 280 grammes
- Robust aluminium upper/lower tube (Ø 18 / 16 mm)
- Price: 99.95 €

## “WANDERING EYE”

The telescopic stick with its dual adjustment feature is the “third eye” on every tour. The sound of “Wandering Eye”, Fat Freddy's Drop provided developers with the necessary drive during its design.

“All you got to do is, do it...!”

Features:

- Separate padded grip zone below the grip
- Soft, water-repellent foam grip
- Padded hand loop (neoprene)
- Superior-quality impression (sublimated, therefore extremely scratch resistant)
- 65 to 140 cm long
- Weight / Stick approx. 270 grammes
- Robust aluminium upper/lower tube (Ø 18 / 16 14 mm)
- Price: 79.99 €

### About SKYLOTEC:

Skylootec has been a byword for safety at great heights for 60 years. Founded by Eduard Kaufmann in 1948, SKYLOTEC has always been one step ahead when it comes to innovation and technology in the area of height safety. 60 years of experience have given rise to an expertise that is now tackling challenges in a whole new area: **SKYLOTEC goes Mountain!**

Knowledge, know-how and technology drawn from industrial fall safety have been applied to the discipline of climbing, in which safety at heights is also essential. High-quality hardware products are supplemented by a functional textile collection tailored to meet all the needs of alpine mountaineers and climbers.

Markus Steinke, the former owner-director of Mountain Wave, is still active as a ski product developer and has taken on additional functions as a trainer at seminars on height safety at SKYLOTEC.

“The acquisition of Mountain Wave represented a logical expansion of our product portfolio”, says Florian Wahl, Head of Sales and Marketing Sport. “We want to be in a position in future to provide mountain sport fans with our equipment in both summer and the winter months.” Our objective is to become a complete mountain sport provider”, added Wahl.

Touring and freestyle ski will be supported by the existing SKYLOTEC sales network in Germany, Austria, Switzerland and Northern Italy.
